FARMERS NEEDING RAIN.

A. S. Edney, who lives about three miles from Edneyville in the direction of Bear Wallow mountain, while in the city Monday stated the crops were suffering for want of rain in his section. Although there has been rain in other sections nearby, his vicinity has not had satisfactory seasons, the potato crop has been badly injured but if the seasons are favorable hereafter prospects are bright for a good corn crop. Mr. Edney and associates began operating their grain thresher last week and the wheat and rye crops are turning out unusually well.

KANUGA HAS BEST OPENING IN HISTORY OF THE CLUB.

Kanuga Club has had the largest opening this year in its history, and the season promises a "full house" by August 1.

It has been the custom at Kanuga heretofore to admit only the families of club members, but this year the guest list has been enlarged to include friends suggested by members, and many new people are present as a result.

The early crowd represents every Southern state east of the Mississippi and one or two northern states. As usual, the far South guests are mostly cottagers, and of the 40 houses all but eight or 10 are occupied.

A feature of unusual interest this year to the younger set is the expected visit of the University Athletes, who come on August 1 to begin training for the approaching football season. An invitation of Kanuga Club they are combining a month of athletic training with a vacation. Coaches Trenchard and Blumenthal will be with the team. The camp will continue through the month of August. About 40 students are expected.

Every family in Henderson county should take the county's leading news paper and keep posted on home affairs, which are contained in the Democrat. \$1 a year until July 18.

FOR THE FARMER.

If building and loan associations are good for cities, land and loan associations ought to be good for rural communities, it appears.
